## What are Autoflowering seeds?

Ah, the marvels of modern horticulture! Autoflower seeds, my dear friends, are a true testament to the boundless ingenuity of humanity. Imagine, if you will, a seed that requires no manipulation of light cycles.

Autoflower seeds spring into life with incredible zeal and blossom into a fully formed plant in a mere matter of weeks.

Indeed, autoflowering cannabis seeds have taken the cannabis cultivation world by storm.

With these autoflower feminized seeds you need not concern yourself with the intricacies of photoperiodism, for they possess a genetic predisposition to flower independent of a light cycle. What is more, these strains pack a veritable cornucopia of benefits into one plant and can be grown indoors or outdoors.

 500 g/m<sup>2</sup>

 21%

 100/110 cm

 0.7%

Barneys Farm are continually pushing the limits of marijuana genetics, improving their selection and breeding processes to create something that is truly breath-taking. Acapulco Gold is the next generation of marijuana. Like the original namesake the Acapulco Gold flowers with fat colas, flecked with beautiful reddish brown calyx, each covered with beautiful crystals of THC. The smoke has an intense fruit cocktail flavour that lingers for hours. This is a Sativa dominant strain that offers a long lasting high, balancing relaxing stress reduction with a real upbeat effect. Acapulco Gold far surpasses the rhapsodized smoke of days past.

Amnesia Lemon was created in collaboration with Barneys and the legendary Soma, winning the Cannabis Cup in 2004. Following this huge win Soma passed on his very best phenotype of Amnesia Haze to Barneys Farm Labs. Amnesia Lemon is a delicious blend made by a crossing Amnesia Haze with Lemon Skunk. The tantalising flavours combined with the power and resilience of both lineages produced this spectacular strain. The uplifting and cerebral high is definitely Sativa and will leaving you wanting more. The Amnesia Lemon has a flowering cycle of just 8 to 9 weeks and grows medium high, with long dense colas.

# Ayahuasca Purple

Feminized

Red River Delta X Master Kush

55/65 days

100% Indica

End September

650 g/m<sup>2</sup>

21%

90/100 cm

1.4%

The Farm received a gift of these Red River Delta seeds some years ago. When grown out these incredibly beautiful purple/ruby red plants were a revelation. By crossing with the original Master Kush we found a perfect plant. Ayahuasca Purple displays almost pure Indica traits. Wide fan leaves and a short strong heavysset structure carries colossal dense buds that turn to a beautiful purple hew in the last two weeks of flowering. Branches need support in the final week of flowering. This strain creates a heavenly, relaxing and satisfying effect with a rich, rare hazelnut and papaya aroma.

 0.5%

BANANA PUNCH is yet another breeding masterclass from the Barney's Farm lab and the next delicious addition to our prestigious exceptional flowers collection, combining two of the most sought-after genetics Banana OG and Purple Punch! We selected an extraordinary tranquilising 55% Indica biased variation to evolve that consistently provided higher yield potential combined with a shorter flowering period of just 60-65 days. This combined with enhanced terpene production especially of Limonene and Pinene created a citrus tropical fruit flavour backbone perfect for the Banana OG's exquisite essences of ripe sweet banana shine through.

Created for the real connoisseurs featuring two of the USA's premium and most elusive strains. The lab crossed Biscotti; already a world beating 80% Indica dominant specimen with our exclusive and delicious Mintz Phenotype. The results were stunning, the Cookies variant X OG Kush parentage provided the incredible potency and a flavour backbone, add the infusion of the creamy smooth Mintz genetics created this Mouth-watering new champion of a strain, a totally unique edition to our catalogue. Biscotti Mintz is predominantly a deep purple plant with trichome production off the scale, during the final day's leaves display a beautiful array of purples, oranges and greens wrapping the tightly formed bolder shaped dark green buds with bold purple highlights and long orange hairs.

Blending two of the worlds most distinguished strains and reproducing the best characteristics from both these noble genetics was a complex assignment. In Blueberry OG - we have succeeded in creating a strain with the classic Indica power of the Blueberry plant with the rich psychoactive backbone of the infamous OG Kush. This highly rewarding hybrid will leave any grower breathless. Huge colas of packed buds develop on the maturing plant. A rich fragrance of sweet citrus and musk flood from every harvest. The plant grows medium height with many rewarding side branches allowing for a harvest up to 700 g/m<sup>2</sup>.

# Bubba Kush

Feminized

- |  |   |
|--|---|
|  Afghan Kush Landrace X OG Kush |  56/63 days    |
|  30% Sativa - 70% Indica        |  Early October |
|  550-600 g/m <sup>2</sup>       |  29%           |
|  100/120 cm                     |  0.8%          |

This remarkable plant is indeed descended from the famous genetics originally discovered by somebody only known as 'Bubbha' in the US. It has now been stabilised by the team and elevated to a standard that befits its well known history and reputation. This surely is one of the most loved Indicas in the world, weighing in at a startling 29% THC. Bubba Kush is a cheeky yet productive plant that will not become excessively tall during her speedy 8 to 9 week flowering period. Because of this characteristic she can be an ideal candidate for those seeking a powerful hard hitting strain that does not take up a huge amount of space whilst budding.

 Mid November

 26%

 0.4%

A strain named in honour of an amazing Cannabis advocate, researcher and author, Dr. Lester Grinspoon. This is a pure heirloom Sativa which grows tall and thin. This plant requires a longer flowering time, but when mature the colas resemble compact green and reddish brown beads. These loosely hang on thin stems, the buds give a lemon and sumac scent and produce a light smoke with tangy tropical fruit aromas. Dr. Grinspoon offers an old school Sativa of the highest order, which gives a strong, long lasting, energetic and cerebral high.

 1.6%

During our selective process on Biscotti Mintz we introduced a Critical Kush pheno that displayed an unusual 30% sativa characteristic. This combined with our delicious Mintz brought something very exciting to the table, a 70% indica dominant plant, totally unique to our catalogue with amazing characteristics. Kush Mintz with its powerful Himalayan OG Kush lineage is extremely vigorous, powerful indica now with a 30% sativa boost. The explosion of the Critical lineage infusion brings huge yields both indoor and out with outdoor heights reaching 2 meters, super strong and sturdy with unbelievable production capabilities. The Mintz unsurprisingly further enhances those famous earthy Pine and sweet citrus Kush aromas with hints of coffee and delicate hints of minty cookies!

We are delighted to introduce this brand new Strawberry & Lemon flavoured creation from Barney's Farm. Crossing the highly potent & mostly sativa Strawberry with the phenomenal Lemonade OG produced a strain that makes nostrils fizz, taste buds explode and brains bubble. An array of fruity tasting terpenes transports you into a strawberry coloured world of relaxation, relieving pain and leaving you feeling invigorated and energetic. Strawberry Lemonade is hugely popular for daytime activities, with lab tests reporting a massive THC content of above 20%. Whatever you do, don't miss out on this sparkling new addition to the Barney's Farm catalogue.

Tangerine Dream is an Sativa dominant strain that offers tangy Tangerine aromas and flavours, giving an instant relaxing and cerebral high. This plant has a short flowering time at just 65 days; however it will need supporting in its final weeks. Tangerine Dream grows up to a metre tall, and its strong side branches yield an impressive 600g per square meter. Colas grow large and heavy, beautifully coated with red and orange trichomes.

Triple Cheese is the crossing of our Blue Cheese with the powerful Original Cheese (Skunk #1 phenotype), created over many generations of selections and back crossing to give this amazing strain. Triple Cheese is everything we wanted to create and more. But wait, it gets better; this plant is easy to grow and produces dense buds with a remarkable blueberry and Old Cheese taste. The indisputable dank cheese flavour dominates this strain, and packs a punch.

Tropicanna Banana is another totally tantalising addition to our Cali collection. A mesmerising tropical cocktail of fresh and fruity flavours, uncompromising power and extraordinary yield potential. This remarkable hybrid is sweet, sticky, pumped up, highly potent and will leave growers gasping in awe at these high performing genetics. Barney's Farm have tamed this Sativa Dominant hybrid (60% Sativa, 40% Indica) and garnished it with huge dollops of glistening, sweet tropical fruit scented trichomes. A perfectly crafted marriage of Tropicanna (Girl Scout Cookies X Tangie) and a twist of Banana Kush infuses a calming Indica influence. Let her effervescent personality guide you into a world of euphoric fizz and mystery.

An unforgettable journey into the land of delight begins with a single taste of this Indica dominant SUPER POTENT fiend of a strain. Its family line oozes sweet and sour earthy scents with unmistakable vanilla aromas and old skunky undertones. An acclaimed fusion, famous for its creative, uplifting and euphoric relaxation properties. The lab have chosen a more Indica dominant 80% Indica + 20% Sativa version for our Wedding Cake, opting to evolve further the original Pink Cookies genetics "aka wedding cake" from the Barneys Farm vault. Wedding Cake inherits much of its power from its Girl Scout Cookies parent, crossed with Cherry Pie, bringing a sophisticated twist from its OG and Durban Poison X Granddaddy Purple heritage.

|  100 cm                          |  |

Amnesia Haze Auto is probably one of the most exciting releases that Barney's Farm has put out in a while, a long awaiting and overdue evolution of a true classic. The ancestry of Amnesia Haze genetics is quite breath-taking, crossing landraces from Southeast Asia (Thai, Cambodian, Laotian) a sprinkle of Jamaican Haze varieties topped off with the accelerant of Afghani – Hawaiian genetics. Nearly two decades ago, Soma gifted one of his best Amnesia Haze phenotypes to the Barneys Farm Labs. These legendary genetics that dominated the Amsterdam scene since Barney's won High Times Cannabis Cup in 2004, have been quietly simmering in the background enduring a complex fusion with our BF Super Auto #1.

-  23%
-  0.2%

Skywalker OG super auto has arrived, blast your way through the day with this outstanding Autoflowering cannabis strain. Your light-saber will throb and flash when you experience the Skywalker and unleash the power of the force for the first time. A favourite in the lab for breeding this specimen was trialed in its own right by TONI13 and due to the outstanding results it was decided to release it in autoflowering format for the world. This aromatic autoflower literally explodes into a pine flavoured christmas tree in a mere 70-75 days from seed, producing an abundance of glorious kushy flowers dripping with glistening THC crystals. Expect a final height of up to 1.2 metres.

Strawberry Pie X Afghan OG X BF Super Auto #1

75/80 days

25% Sativa - 75% Indica

21%

650 g/m<sup>2</sup>

1.5%

100 cm

Featuring a totally unique twist, Barney's Farm continues its quest in the creation of pioneering genetics with our own Strawberry Cheesecake Auto. After extensive selective breeding with our various strawberry terpene-rich strains, we chose a tantalizingly subtle Strawberry Pie pheno. The lab then crossed this with a rare cutting of an Afghan OG. The infusion of these Indica dominant Kush traits ensures rapid growth, incredible production capabilities and a strong forgiving structure. Crossing this creation with our BF Super Auto #1 means Strawberry Cheesecake Auto can also thrive in cooler climates, larger in life than most autos, but perfectly compact and completing its life cycle in a blink of an eye.

Tangerine Dream Auto has been developed as a treat for lovers of our award winning Coffeshop classic Tangerine Dream. The best of both worlds for smokers and growers and a fun plant to grow. Tangerine Dream Auto has a 70-day finishing time from germination is remarkably short, and the 70 cm high plants with their strong and numerous side branches, yield an impressive crop. Now even quicker and easier to grow, this sativa dominant autoflowering strain offers the same tangy, intense sweet citrus aromas and flavours with slightly less THC and a CBD boost creating a balanced cerebral relaxing effect.
