OG Kush Hybrid.

Pink Kush™ is a stunning and highly regarded relative of OG Kush which visually defies reality with her breathtaking pink and purple hues. Her flowers are dense and shimmer in the light with glistening trichomes in less than 70 days. **Pink Kush™** produces dense buds, so low humidity preferable. You can expect heavyweight effects in addition to a much-loved light feeling that provides guaranteed sensual satisfaction. Rich in terpenes, **Pink Kush™** tantalizes the nostrils and clears the senses. Flowering indoors is normally complete in 9 weeks, outdoors a dry climate is preferred. High yields can be expected 600-700 gr/m².

Pineapple X Skunk #1 X Cheese.

We crossed the famous "Barney's" Pineapple with our Cheese/Skunk #1 with the intention of breeding into this new variety the essence and flavour of these two delicious strains. The result is an extremely vigorous and stable plant. Mould and disease resistant. The essence and flavour of **Pineapple Chunk™** is immediately obvious. Its aroma of earthy Cheese X Skunk is backed up by a secondary scent of Pineapple. The taste is delicious and unique. Earthy flavours are underpinned by a strong tasty Pineapple aftershock. A huge giver with a massive THC output and high CBD giving a powerful couch lock effect.

Red River Delta X Master Kush.

The Farm received a gift of these Red River Delta seeds some years ago. When grown out these incredibly beautiful purple/ruby red plants were a revelation. By crossing with the original Master Kush we found a perfect plant. **Ayahuasca Purple™** displays almost pure Indica traits. Wide fan leaves and a short strong heavysset structure carries colossal dense buds that turn to a beautiful purple hue in the last two weeks of flowering. Branches need support in the final week of flowering. This strain creates a heavenly, relaxing and satisfying effect with a rich, rare hazelnut and papaya aroma.

🏆 Peyote Purple X Critical Kush.

Peyote Critical™ - created by crossing Peyote Purple and **Critical Kush™**. The result is an Indica hybrid that combines all the raw power of the **Critical Kush™** with the notorious sweet flavour and colourful brilliance of the Peyote Purple. These two plants are perfectly matched, their striking similarities making this a truly harmonious blend. Both parent plants are short flowering, produce exceptional yields and are tough too. One for the senses, delicious sweet earthy flavours, and aromas of aged wood and sweet coffee. Powerful, sweet tasting and big yielding.

G13 X ChemDawg 91.

Liberty Haze™ is a strain created from a crossing of G13 with a fast flowering ChemDawg 91. This strain has both Indica and Sativa characteristics, and has a fast flowering time of 8-9 weeks, where it grows to a medium height. This plant has a substantial girth, and performs excellently both indoors and outdoors. The long dense colas start to fatten up in the last few weeks, producing dense buds in a beautiful red and purple calyx. The buzz is immediate and long lasting, creating a euphoric cerebral effect. This strain has a distinct lime taste and fragrance.

Afghani Kush X Kashmir.

Vanilla Kush™ combines a fast flowering Afghan strain with the unique Kashmir seeds collected by Barney's in the mid-1980s. **Vanilla Kush™** marries the Indica strength of the best Afghani genetics with the high mountain aromas of the Kashmir valley. **Vanilla Kush™** grows to a medium height with bushy side branches. These give healthy yields of dense colas, covered with beautiful red and gold calyx. The flowers then cure to produce magnificent buds that encapsulate the scent of wild vanilla and pine. The result is a strong, long lasting and relaxing high.

Original OG X Urkel X Afghan Kush. **Bad Azz Kush™** is a strain which was created by breeding a true Indica which is rich in history dating back to 98 in Los Angeles. **Bad Azz Kush™** originally started life from specially selected breeding by our friends in L.A. over years of careful and persistent work. By crossing the Original OG with Afghan Kush and from there crossing it with Urkel, **Bad Azz Kush™** was born. The plant can stretch in the flowering period and will need some space for enormous colas to develop. This is a heavy resin producing strain with enticing and unique dank and subtle forest fruit aromas. We owe a special thank you to our friend and rapper Bad Azz from Tha Dogg Pound Gangsta Crips.

Thai X Jamaican.

Laughing Buddha™ is an almost pure Sativa strain, created by crossing our pure landrace Thai Sativa with our Jamaican Hybrid. This plant has a longer flowering period, but will reward you with large, tight and heavy buds from a one metre tall plant. It will need to be supported in the last three weeks of flowering. It is a beautifully fragrant plant, giving off concentrated sweet aromas of exotic fruits. The results are an energetic Sativa high.

Cannabis Cup & Sativa Cup Winner 2008

 **Brazilian landrace.**

Utopia Haze™ is the result from generations of backcrossing and selection from a prized Brazilian landrace. In its first Cannabis cup the **Utopia Haze™** took both Cannabis and Sativa cups, and was called the overall favourite of the event. This is a tall mould and disease resistant plant, growing up to 130cm, and boasts a high yield of 650g per square metre. It bursts with citrus and mint flavours, and will give you a long lasting cerebral Sativa high.

Sativa Cup Winner 2007

 **Soma's Amnesia Haze X Lemon Skunk.**

Amnesia Lemon™ was created in collaboration with Barney's and the legendary Soma, winning the Cannabis Cup in 2004. Following this huge win Soma passed on his very best phenotype of Amnesia Haze to Barney's Farm Labs. **Amnesia Lemon™** is a delicious blend made by a crossing Amnesia Haze with Lemon Skunk. The tantalising flavours combined with the power and resilience of both lineages produced this spectacular strain. The uplifting and cerebral high is definitely Sativa and will leave you wanting more. The **Amnesia Lemon™** has a flowering cycle of just 8 to 9 weeks and grows medium high, with long dense colas.

Heirloom Sativa strain.

A strain named in honour of an amazing Cannabis advocate, researcher and author, Dr. Lester Grinspoon. This is a pure heirloom Sativa which grows tall and thin. This plant requires a longer flowering time, but when mature the colas resemble compact green and reddish brown beads. These loosely hang on thin stems, the buds give a lemon and sumac scent and produce a light smoke with tangy tropical fruit aromas. **Dr. Grinspoon™** offers an old school Sativa of the highest order, which gives a strong, long lasting, energetic and cerebral high.

Californian Orange X NYC Diesel.

Red Diesel™ brings together our famous NYC Diesel with the sweet citrus of the Californian Orange Bud plant. This plant is hardy and grows to a medium size, but the side branches will need supporting in the last week of flowering. The large colas are filled with resin, and are coated with the dominant red hairs of the Cali Orange. **Red Diesel™** combines the best of a trippy cerebral Sativa high with the relaxing tranquillity of the Indica.

Malana Charas X Hindu Kush.

We spent some time in the Himalayas and the Malana Valley collecting and carefully selecting the very best genetics from the region. The Malana Charas was selected for its potency and hash giving characteristics. Crossing with the pure Indica Hindu Kush gave birth to **Violator Kush™**, a heavy producing Indica dominant strain. This plant grows short with big leaves, big stems and well developed side branches, which will need to be supported. **Violator Kush™** displays an extraordinary density of trichomes, with an amazing musty smell and taste. This strain will give an amazing and comfortable couch hugging effect.

Afghani X Nepalese X Hawaiian. **Sweet Tooth #1™** took the world by storm in the early 2000's, winning three successive Cannabis Cups. Acclaimed for its intense sweet grapefruit flavour and excellent production the **Sweet Tooth #1™** strain grows compact and is fast flowering, producing a tremendous yield of highly potent buds, dripping with enormous resin content. Branches will need supporting in the final weeks of flowering. **Sweet Tooth #1™** produces a hardy mould resistant plant and will adapt to extreme conditions making it easily accessible to all levels of grow. The sweet grapefruit flavours of **Sweet Tooth #1™** delight both connoisseur and novice growers and a must have for collectors.

Brazilian X Afghani.

The crossing of a Pakistani Kush with a true Brazilian Sativa paved the way for one of our most exotic strains. **Red Dragon™** gives a distinctive and immediately exotic Sativa high, with a relaxing effect that lasts for hours. The finished buds encapsulate the flavour and smell of Guava fruit within unique red and green colas. **Red Dragon™** grows medium short, and has a short 8 week flowering period. This plant gives a big yield of highly prized product, but finishes outdoor by the end of September.

Afghanistan X Pakistan.

Some of the very best hashish in the world is found between the mountainous border of Afghanistan & Pakistan. After many years of selectively inbreeding superior genetics from this region, we have now got a strain that is very easy to grow, even in the most unfavourable conditions. This short and sturdy plant is a good choice for both SOG and ScrOG gardens. **8 Ball Kush™** grows wide, with thick stems and dark leaves that produce dense buds. The flavours all resemble a classic Kush, earthy and musky, with deep spicy accents.

Stella Blue X Nepali Kush.

This is a cross of our famous Stella Blue with our Nepali Kush. The results give a truly beautiful experience, crossing the aroma and punch of each strain. The pepper of Stella tempered with the minty aftertaste of Nepali will blow your mind, and could quickly become one of your favourite strains. The plant grows to a medium height, and creates large dense colas in a beautiful array of colours. The branches really fill out, producing large yields of seductively aromatic cannabis. The side branches will need supporting as they fill out in the final two weeks of flowering.

Critical Kush X Shanti Baba's CBD Enhanced .

Barneys Farm / CBD Crew Collaboration. A crossing of the legendary Indica **Critical Kush™** crossed with Shanti Baba's CBD enhanced strain. This is a fast flowering strain that produces huge heavy buds, but will need to be supported in the final weeks of flowering. The flowers are full of resin and **CBD Critical Cure™** has an intense and earthy flavour, with an added hint of sweetness. The therapeutic benefits will speak for themselves.

Skunk #1 X Blueberry X Shark Shock X CBD .

A Barney's Farm / CBD Crew Collaboration. **CBD Blue Shark™** is an Indica dominant strain created by a cross of Skunk #1 and CBD Enhanced. Blueberry was crossed with the classic Shark Shock and finally bred with our CBD enriched Sativa to give this outstanding result. The plant is ideal for pain and nausea relief, and gives it's user a relaxing and satisfying tranquil effect. This is a fast flowering plant; ready to harvest in just 8-9 weeks of flowering. This strain is hardy and mould resistant, and gives a great yield of citrus flavours flecked with a hint of Jasmine.

Afghan. The **Afghan Hash Plant™** was chosen from seeds collected in the 1970's, from the best traditional hash makers in the Mazari Sharif region. An exciting few years were then spent growing out and selecting the strongest and tastiest phenotypes for our breeding stock, from there the **Afghan Hash Plant™** was unearthed. It is a champion hash making variety and is one of our favourite pure Indica strains. This has become an important building-block in other Barney's Farm hybrids and in just 8 weeks flowering, the **Afghan Hash Plant™** develops dense resin-dripping flowers, releasing a rich sandalwood aroma that's undercut with a punch of citrus.

Afghan X Skunk#1 X Old School Haze.

Pineapple Haze™ is the coming together of the legendary earthy Afghan X Skunk#1 and the spicy Old School Haze. This produced a supreme Sativa dominant hybrid with an extravagant harvest, delicious pineapple flavours together with a heavenly cerebral high. The average yield is 600 gr/m² indoors, but a longer pre-flowering time will increase up to 700gr/m². **Pineapple Haze™** thrives outdoors in most climates and yields of 1.5 kilos per plant are not unusual. The plant is mould resistant, hardy and rewarding for even the most novice grower. EC levels at a maximum of 1,70 EC during the flowering period will help the plant to its ultimate best.

Critical Mass X OG.

For connoisseurs in search of the ultimate **Critical Kush™** mother. A fusion of two of the world's most distinguished genetics, Critical Mass (Mr. Nice) and our own OG Kush. The **Critical Kush™** hybrid is powerful and extremely vigorous yielding huge amounts of beautiful and very potent flowers. The Kush taste is unmistakable and the yield per plant is phenomenal. The plant grows to a medium height with side branches needing extra support to carry the weight of beautifully developed majestic colas of bud. **Critical Kush™** produces dense, heavy flowers.

Tijuana Sativa / Kerala India X Afghan.

Widow Remedy™ was created by first crossing Tijuana Sativa with Kerala which created a beautiful Sativa dominant plant, flowering with high levels of cannabinoids. The strain was then further developed when combined with a pure Afghan, mainly to increase yield, shorten the flowering period and the added bonus of increased CBD potency in the final selection. The final result from this three-way blend is a remarkable hybrid with lineage approaching to the widow strain with added CBD. **Widow Remedy™** is an effective cure for pain relief, insomnia and comfort for nausea. Rainy day blues evaporate in its mist.

G13 X Hawaiian Sativa.

Maintaining our mystical G13 legend by crossing G13 with a classic Skunk#1. Crossing the G13 X Skunk#1 with our favourite Hawaiian Sativa, Barneys Farm has taken the G13 legend soaring to a celestial high, creating the famous **G13 Haze™**. This plant produces a high that covers the complete spectrum of effects, with a full body stone combined with a psychedelic Sativa high. The combination is powerful, heavenly and unforgettable. **G13 Haze™** grows relatively tall and produces an outstanding generous flower structure with healthy resin production.

CBD Caramel Regular™

Brazilian X Himalaya X Afghan X CBD enriched.

CBD Caramel™ is a CBD enriched exotic 3-way fusion. A 70%/30% Indica dominant strain with 1:1 CBD-THC. The plant has dynamic growth from the start. The plant produces a very resinous, Sativa like flower structure, that is ready in just 60 days! An indoor yield of 500 gr/m² is easily attainable. **CBD Caramel™** is also ideal for outdoor growing. **CBD Caramel™** produces sweet sticky buds whose psychoactive effects are mellow, cerebral and comforting to patients needing to medicate while free from a stoned effect.
