GG 4 X Zkittlez.

Unleash the gigantic power of West Coast genetics with an amazing fusion of GG 4 and Zkittlez. Introducing Barney’s Farm brand new Gorilla Zkittlez™. An exquisite trichome celebration awaits the patient following 60 days in bloom. You won’t forget the first time you experience her fertile fruits. Leaning toward the Indica side of the cannabis spectrum, this emerging favourite is a powerful and thought provoking beauty, whose trichome-laden glistening pistils will delight all comers. Why not let her medical grade 24% THC seduce you into a warm realm of rest and relaxation that you will never want to leave.

Gorilla Zkittlez™

Peyote Purple X Critical Kush.

Pink Kush™ is a stunning and highly regarded relative of OG Kush which visually defies reality with her breathtaking pink and purple hues. Her flowers are dense and shimmer in the light with glistening trichomes in less than 70 days. Pink Kush™ produces dense buds, so low humidity preferable. You can expect heavyweight effects in addition to a much-loved light feeling that provides guaranteed sensual satisfaction. Rich in terpenes, Pink Kush™ tantalizes the nostrils and clears the senses. Flowering indoors is normally complete in 9 weeks, outdoors a dry climate is preferred. High yields can be expected 600-700 gr/m².
Blueberry X Gelato 41.

*Blue Gelato 41™* is our sensational new Blueberry super-cross with Thin Mint Girl Scout Cookies and the fresh and fruity Indica, Sunset Sherbert. Blue Gelato will rapidly plunge you into a tranquil pool of potent psychedelic pleasure. Many phenotypes display blue/purple flowers, all are smeared in thick resin and ooze sweet and earthy citrus flavours. Let this fabled Indica fascinate your taste buds and massage pain away leaving pure satisfaction and joy. Although Gelato’s aromas are wonderfully intoxicating, effects are generally clear headed and energetic.

---

Strawberry X Lemonade OG.

*Strawberry Lemonade™* is our sensational new Blueberry super-cross with Thin Mint Girl Scout Cookies and the fresh and fruity Indica, Sunset Sherbert. Blue Gelato will rapidly plunge you into a tranquil pool of potent psychedelic pleasure. Many phenotypes display blue/purple flowers, all are smeared in thick resin and ooze sweet and earthy citrus flavours. Let this fabled Indica fascinate your taste buds and massage pain away leaving pure satisfaction and joy. Although Gelato’s aromas are wonderfully intoxicating, effects are generally clear headed and energetic.

Orange Cream X Purple Urkle X Cherry Pie. Orange Sherbert™, a powerful and invigorating Indica dominant hybrid with intoxicating and mouth-watering effects. This is an all American strain that gathers together Orange Cream, Purple Urkle and Cherry Pie in one amazing Candy/Orange tasting plant. Grows out the most amazing dense orange and purple flowers imaginable with a taste that is an incredibly outstanding deep orange. Very Indica relaxing effect leaves the body and mind in a chilled and peaceful place. This plant is one of the easiest to grow Plants will grow up to 1.3 meters and produce huge colas of delicious bud. Side branches like support in the last few weeks of flowering.

Blueberry X Afghan.

Getting our Shiskaberry™ strain to this stage has been a complex work in progress for years and we are delighted to finally introduce this unique and wonderful strain to our catalog. Shiskaberry™ is a unique experience. Her pungent earthy, spicy notes leave a memorable, delicious aftertaste. Her beautiful berry scent will submerse you in a deeper dimension of delight and insight, Shiskaberry™ is one stunning Indica who will put you where you need to be and keep you there. She may loosen your tongue, then make you happy, before giving you a full body relaxing massage. Who could ask for more?

**Girl Scout Cookies X OG Kush.**

A new phenomenon sends shockwaves throughout the cannabis community. **Cookies Kush™** is created by crossing our outstanding Girl Scout Cookies phenotype with a powerful OG Kush (phenotype Rolex), from the beginning this project gave incredible results. The great OG Kush quality merges with that powerful mint chocolate/early morning bakery smell and taste of the Girl Scout Cookies. The strain is very forgiving to difficult conditions and easy to grow. Expect huge yields in 8 weeks of flowering indoors.

**Critical Kush™**

**Critical Mass X OG Kush.**

**Critical Kush™** is a blending of the famous Critical Mass with OG Kush. This is a powerful and extremely vigorous Indica plant, yielding huge amounts of beautiful, very strong Kush. Flowers in just 8 weeks indoors, and grows medium height with great flower to leaf ratio. Take pleasure in its sticky feel, aromatic scent, crystal covered buds and knockout stoned high. The Kush taste is unmistakable, and the yield per plant phenomenal. This new hybrid is a significant advance in modern marijuana breeding. Its Indica dominant nature makes it ideal for relaxation, pain relief and late night smoking.

Peyote Purple X Cookies Kush. Blending two of the worlds most distinguished strains and reproducing the best characteristics from both these noble genetics was a complex assignment. In Blueberry OG™ - we have succeeded in creating a strain with the classic Indica power of the Blueberry plant with the rich psychoactive backbone of the infamous OG Kush. This highly rewarding hybrid will leave any grower breathless. Huge colas of packed buds develop on the maturing plant. A rich fragrance of sweet citrus and musk flood from every harvest. The plant grows medium height with many rewarding side branches allowing for a harvest up to 700gr/m².

Red River Delta X Master Kush.
The Farm received a gift of these Red River Delta seeds some years ago. When grown out these incredibly beautiful purple/ruby red plants were a revelation. By crossing with the original Master Kush we found a perfect plant. *Ayahuasca Purple™* displays almost pure Indica traits. Wide fan leaves and a short strong heavyset structure carries colossal dense buds that turn to a beautiful purple hew in the last two weeks of flowering. Branches need support in the final week of flowering. This strain creates a heavenly, relaxing and satisfying effect with a rich, rare hazelnut and papaya aroma.

Pineapple X Skunk #1 X Cheese.
We crossed the famous “Barney's” Pineapple with our Cheese/Skunk #1 with the intention of breeding into this new variety the essence and flavour of these two delicious strains. The result is an extremely vigorous and stable plant. Mould and disease resistant. The essence and flavour of *Pineapple Chunk™* is immediately obvious. Its aroma of earthy Cheese X Skunk is backed up by a secondary scent of Pineapple. The taste is delicious and unique. Earthy flavours are underpinned by a strong tasty Pineapple aftershock. A huge giver with a massive THC output and high CBD giving a powerful couch lock effect.

*Indica Cup Winner 2009*
**Peyote Critical™**

- **80% Indica**

- **24% THC 1.4%**

**G13 X Afghan X Neville’s A5 Haze.**

Peyote Critical™ - created by crossing Peyote Purple and Critical Kush™. The result is an Indica hybrid that combines all the raw power of the Critical Kush™ with the notorious sweet flavour and colourful brilliance of the Peyote Purple. These two plants are perfectly matched, their striking similarities making this a truly harmonious blend. Both parent plants are short flowering, produce exceptional yields and are tough too. One for the senses, delicious sweet earthy flavours, and aromas of aged wood and sweet coffee. Powerful, sweet tasting and big yielding.

**Tangerine Dream™**

- **60% Sativa. 40% Indica**
- **600 gr/m²**
- **90/100 cm**
- **60/65 days**
- **Early October**
- **23% THC 1.8%**

**G13 X Afghan X Neville’s A5 Haze.**

Tangerine Dream™ is an Indica dominant strain offering tangy sweet Tangerine aromas and flavours, as well as effects that are at once cerebral and relaxing. Tangerine Dream™ 65 day flowering time is remarkably short and the one metre high plants with their strong and numerous side branches yield an impressive 600 grams per square metre. The plant needs support in its final weeks. Colas grow large and heavy, beautifully coated with red and orange trichomes.
G13 X ChemDawg 91.
Liberty Haze™ has both Indica and sativa characteristics with a fast flowering time (8 to 9 weeks). A medium tall plant with substantial girth and big fat calyxes, she performs excellently in both indoor and outdoor environments. Long dense colas start to really fatten up in the last three weeks with dense bud production with beautiful contrasting red and purple calyx. The Liberty Haze™ buzz is immediate and long lasting with an alert and euphoric cerebral effect. Has a distinct and refreshing lime taste and fragrance. Lab tests have rated the THC content at up to 25%.

Original Cheese X Blueberry.
This Barneys Farm version of Blue Cheese™ is by far the best, strongest on the market and is guaranteed to knock your head off. A very productive easy to grow strain yielding incredibly fragrant and tasty buds. The characteristically intense aged-cheese flavours are softened by the sweet blueberry aftertaste. This short stocky plant has strong side branches that develop very heavy sticky colas during a short flowering period. The potent effects are powerful, calming and relaxing – a true sensation for Indica enthusiasts. Now also available in an autoflowering strain.
**LSD™**

- 30% Sativa. 70% Indica
- 700 gr/m²
- 90/100 cm
- 60/65 days
- Early October
- THC 25% CBD 1.2%

**Original Skunk #1 crossed with a powerful Afghan Indica.**

Named LSD™ by the Barneys Farm crew because of its powerful trippy effect. LSD™ is a hardy mould and disease resistant plant that responds well in all growing conditions. Very easy to grow and with just a little care and attention LSD™ gives the grower very high yielding, award winning, powerful results. The flavour is reminiscent of intense earthy chestnut with a sweet musky smell. LSD™ produces a euphoric and very powerful stoned effect.

---

**G13 Haze™**

- 80% Sativa. 20% Indica
- 550 gr/m²
- 100/110 cm
- 65/70 days
- Mid October
- THC 22% CBD 1.2%

**G13 X Hawaiian Sativa.**

We take the G13 legend to an even higher level by crossing it with our favourite Hawaiian Sativa. The resulting plant yields an extraordinary density of flower structure with heavy resin production. G13 Haze™ grows medium short and compact for a Sativa dominant strain, and is ideal for SOG and ScrOG gardens. Not only does G13 Haze™ offer good, healthy yields and a high THC level, the smoke is worth savouring as well. The intense aromas and flavours of fruit and spice lead to powerful, cerebral effects.
Vanilla Kush™

- 20% Sativa. 80% Indica
- 600 gr/m²
- 90/100 cm
- 55/60 days

Old Cheese X Blue Cheese.

Triple Cheese™ was created by crossing Barneys Farm Blue Cheese™ with the powerful Original Cheese (Skunk #1 phenotype), and over many generations of selections and backcrossing we created this magnificent specimen. Triple Cheese is exactly what we wanted to achieve. The undisputable dank cheese flavour dominates the plant. Triple Cheese™ is very easy to grow, producing dense buds with a remarkable blueberry and old cheese taste. It packs a punch too, with THC levels regularly hitting over 22%.

Afghani Kush X Kashmir.

Vanilla Kush™ is a creation from a fast flowering Afghan Indica strain crossed with a strain from Kashmiri seeds. The Kashmir plant is unique for its very unusual vanilla like aromas and great hash producing capacity. Vanilla Kush™ marries the Indica strength of the best Afghan genetics with the high mountain aromas of the Kashmir valley. Vanilla Kush™ grows bushy side branches and produces healthy yields, forming large dense and beautiful looking colas covered with red and gold calyx. Flowers cure to magnificent looking buds with a scent of wild vanilla and pine. The effect is a strong long lasting and relaxing high.
**Cannabis Cup Winner 2003**

**Feminized Seeds**

**Bad Azz Kush™**
- 100% Indica
- 700 gr/m²
- 100/110 cm
- 55/60 days
- End September
- THC 24% CBD 1.1%

1 € 9 5 € 39
3 € 25 10 € 75

**Original OG X Urkel X Afghan Kush.**

Bad Azz started life from specially selected breeding by our friends in L.A. over years of careful and persistent work. Crossing the Original OG with Afghan Kush and from there crossing with Urkel. **Bad Azz Kush™** is the final result. **Bad Azz Kush™** is a heavy resin producing strain. The plant can stretch in the flowering period and will need some space for enormous colas to develop. Unique dank and subtle forest fruit aromas. Named after our friend and Rapper Bad Azz from Tha Dogg Pound Gangsta Crips (Thank you Jamarr).

**Laughing Buddha™**
- 80% Sativa. 20% Indica
- 600 gr/m²
- 100/110 cm
- 70/75 days
- End October
- THC 22% CBD 1.6%

1 € 9 5 € 39
3 € 25 10 € 75

**Thai X Jamaican.**

We created **Laughing Buddha™** by crossing a pure landrace Thai Sativa with our Jamaican hybrid. **Laughing Buddha™** is an almost pure Sativa strain. Great reward comes from the longer flowering period. The payoff is a one metre tall plant stinking with large, tight, heavy buds. The plant needs to be well supported in the last three weeks of flowering. **Laughing Buddha™** is a beautifully fragrant plant with concentrated aromas of exotic fruits and sweet flavours. An energetic Sativa high.
**Sativa Cup Winner 2007**

**Soma's Amnesia Haze X Lemon Skunk.**

Barneys Amsterdam with Soma won the Cannabis cup with Amnesia Haze in 2004. **Amnesia Lemon™** is a crossing of Soma's Amnesia Haze and Lemon Skunk. A delicious blend of Amnesia Haze and Lemon Skunk flavours combined and with the power and resilience of both lineages produced this classic **Amnesia Lemon™**. The uplifting and cerebral high is definitely Sativa, but amazingly the **Amnesia Lemon™** has a flowering cycle of just 8 to 9 weeks. The plant grows medium high and delivers long dense colas.

**Utopia Haze™**

**Brazilian landrace.**

**Utopia Haze™** is bred from a prized Sativa dominant Brazilian landrace. Continuous backcrossing of selected plants of this wonderful strain ended with **Utopia Haze™**. When finally released in 2008 **Utopia Haze™** was the overall favourite at the 2008 Cannabis Cup, winning both the Cannabis and Sativa Cups. **Utopia Haze™** grows tall, up to 130cm and is high yielding and mould and disease resistant. **Utopia Haze™** bursts with citrus and mint flavour, with a powerful long lasting cerebral Sativa high.

---

**Amnesia Lemon™**

**Soma’s Amnesia Haze X Lemon Skunk.**

Barneys Amsterdam with Soma won the Cannabis cup with Amnesia Haze in 2004. **Amnesia Lemon™** is a crossing of Soma’s Amnesia Haze and Lemon Skunk. A delicious blend of Amnesia Haze and Lemon Skunk flavours combined and with the power and resilience of both lineages produced this classic **Amnesia Lemon™**. The uplifting and cerebral high is definitely Sativa, but amazingly the **Amnesia Lemon™** has a flowering cycle of just 8 to 9 weeks. The plant grows medium high and delivers long dense colas.
Heirloom Sativa strain.

Named in honour of our hero, the brilliant cannabis advocate, researcher and author Dr. Lester Grinspoon, this is a pure heirloom Sativa. The plant grows thin and tall, and requires a longer flowering time. When mature, the colas look like compact, green and reddish brown beads, loosely strung on thin stems with a dusting of THC crystals. The fragrance off the buds is of sumac and lemon, the smoke is light and tangy with citrus and tropical fruit aromas. **Dr. Grinspoon™** offers a strong, long lasting, energetic and cerebral high. Old school Sativa of the highest order.

**Phantom Cookies X OG Kush.**

**Phantom OG™** was created by crossing the Sativa dominant Phantom Cookies with OG Kush. The Sativa dominant hybrid not only has a short flowering period, but a much higher yield and higher cannabinoid levels, while keeping the Phantom Cookies unique colours and its flavours of walnut and wild berry. **Phantom OG™** grows to 1.2 meters indoors and easily to 1.50 meters outdoors with flowers rapidly growing to excellence in just 55 to 65 days. Production is enormous! With a crop of purple hued delicious nutty bud that releases a warm cerebral high and comforting stone effect.
Thanks to recent advances in marijuana genetics pioneered at Barneys Farm Labs, the quality of our Acapulco Gold™ goes beyond the often rhapsodized smoke of days past. Just as importantly for us, however, was capturing its spirit. Like the original namesake Acapulco Gold™ flowers with fat colas that are flecked with gold and reddish brown calyx with very visible THC crystals. The intense fruit cocktail of flavours pack a strong sensation that really lingers. Acapulco Gold™ is sativa dominant offering a long lasting high that balances upbeat effects with body relaxing stress reducing calmness.

Chronic Thunder™ was created by crossing the legendary Alaskan Thunder with the stable and high yielding Dr Chronic. Both parents are long established superior genetics and both have achieved greatness in their own right. This wonderful blend of genetics creates a high yielding, short flowering Indica dominant hybrid that grows to 100cm tall indoors with heavy side branches that need support in their final flowering stage. Flowering time of just 8.5 weeks, Chronic Thunder™ produces a relaxing satisfied high with a unique dried cinnamon fragrance and flavour.

Central American.

Thanks to recent advances in marijuana genetics pioneered at Barneys Farm Labs, the quality of our Acapulco Gold™ goes beyond the often rhapsodized smoke of days past. Just as importantly for us, however, was capturing its spirit. Like the original namesake Acapulco Gold™ flowers with fat colas that are flecked with gold and reddish brown calyx with very visible THC crystals. **Feminized Seeds**

- **Malana Charas X Hindu Kush.**
  We spent some time in the Himalayas and the Malana Valley collecting and carefully selecting the very best genetics from the region. The Malana Charas was selected for its potency and hash giving characteristics. Crossing with the pure Indica Hindu Kush gave birth to **Violator Kush™**, a heavy producing Indica dominant strain. This plant grows short with big leaves, big stems and well developed side branches, which will need to be supported. **Violator Kush™** displays an extraordinary density of trichomes, with an amazing musty smell and taste. This strain will give an amazing and comfortable couch hugging effect.

- **Californian Orange X NYC Diesel.**
  The famous NYC Diesel taste blends beautifully with the sweet ripe citrus of the Californian Orange Bud plant. This hardy medium sized plant will develop strong side branches that fill out with beautifully large resin filled colas. The bright red hairs of the Cali Orange Bud are very dominant and very heavy branches need supporting in the last weeks of flowering. The powerful long lasting effects combine the best of a trippy cerebral Sativa high with the relaxing, tranquil characteristics of Indica.
Afghani x Nepalese x Hawaiian.

Barneys Farm *Sweet Tooth #1™* took the cannabis world by storm in the early 2000’s, winning the Cannabis Cup three years running. Its potency and appeal is still phenomenal and we are delighted to continue our long relationship with it. *Sweet Tooth #1™* is easy to grow, produces high yields of large potent colas sticky with resin. The plant grows medium tall with significant strong side branches that will need support in the final weeks. *Sweet Tooth #1™* cured flowers have a wonderful complex sweet mango x nutmeg flavour.

---

Brazilian x Afghani.

*Red Dragon™* was created by crossing a Pakistani Kush with a true breeding Brazilian sativa. These buds have a distinct and immediate, exotic sativa high, but is followed minutes later by a wonderful very powerful relaxing effect that lasts and lasts. Finished buds have a taste and smell of sweet guava fruit. *Red Dragon™* grows medium short, (80-90cm) and produces heavy colas of unique red/green buds. Flowering time is short (just 8 weeks) giving big yields of highly prized product. *Red Dragon™* finishes outdoors by end of September.
**Afghanistan X Pakistan.**

The mountainous border area between Afghanistan and Pakistan is traditionally known as the source of some of the best hashish in the world. After many years of selectively inbreeding the superior genetics from this region, we can now offer a strain that is very easy to grow and flourishes even under unfavourable conditions. This sturdy, short plant is a good choice for both SOG and ScrOG gardens. This grows wide, with dark leaves and produces dense buds that form on thick stems. The flavours are classic Kush: earthy and musky, with deep spicy accents.

**Peppermint Kush™**

- 10% Sativa. 90% Indica
- 550 gr/m²
- 80/90 cm
- 50/55 days
- Mid September
- THC 22% CBD 1.1%

**Stella Blue X Nepali Kush.**

Crossing our famous Stella Blue with our Nepali Kush results in a truly beautiful experience. The aroma and punch of taste is delicious. The authentic pepper of Stella tempered with the minty aftertaste of Nepali is irresistible. The plant grows medium height with a beautiful array of colours. Large dense colas develop on many branches and produces big yields of wonderfully seductive aromatic cannabis. Side branches fill out in the final two weeks of flowering and will need supporting.

**Barneys Farm / CBD Crew – Critical Cure.**

The legendary Indica dominant **Critical Kush™** crossed with Shanti Baba’s CBD Enhanced strain. The fast flowering **CBD Critical Cure™** plant produces huge, heavy buds, and the plant needs to be well supported in the final weeks of flowering. Flowers are full of resin and have exceptionally high CBD levels. CBD and THC share a special interdependent relationship and work together to increase one another’s therapeutic benefits. **CBD Critical Cure™** flowers have an intense and earthy flavour with a hint of sweetness.

**A Barney’s Farm / CBD Crew Collaboration.**

Skunk #1 X CBD Enhanced. Blue Shark is an Indica dominant CBD enriched strain. **CBD Blue Shark™** is Blueberry crossed with the classic Shark Shock and finally bred with our CBD enriched Sativa. Equal 1:1 CBD / THC percentages make the flowers ideal for pain and nausea relief. Great for relaxing and has a very satisfying tranquility effect. The plant is fast flowering, ready for harvest in 8 to 9 weeks of flowering. **CBD Blue Shark™** is hardy and mould resistant giving good yields. Flowers have fruity citrus flavours with an allusion of Jasmine.
**Afghan Hash Plant Regular™**

**Afghan Hash Plant.**

The **Afghan Hash Plant™** was chosen from seeds collected in the 1970’s, from the best traditional hash makers in the Mazari Sharif region. An exciting few years were then spent growing out and selecting the strongest and tastiest phenotypes for our breeding stock, from there the **Afghan Hash Plant™** was unearthed. It is a champion hash making variety and is one of our favourite pure Indica strains. **Afghan Hash Plant™** develops dense resin-dripping flowers, releasing a rich sandalwood aroma that’s undercut with a punch of citrus.

**Afghan X Skunk#1 X Old School Haze.**

**Pineapple Haze™** is the coming together of the legendary earthy Afghan X Skunk#1 and the spicy Old School Haze. This produced a supreme Sativa dominant hybrid with an extravagant harvest, delicious pineapple flavours together with a heavenly cerebral high. The average yield is 600 gr/m² indoors, but a longer pre-flowering time will increase up to 700gr/m². **Pineapple Haze™** thrives outdoors in most climates and yields of 1.5 kilos per plant are not unusual. The plant is mould resistant, hardy and rewarding for even the most novice grower. EC levels at a maximum of 1,70 EC during the flowering period will help the plant to its ultimate best.
**Widow Remedy™**

For connoisseurs in search of the ultimate **Critical Kush™** mother. A fusion of two of the world’s most distinguished genetics, Critical Mass (Mr. Nice) and our own OG Kush. The **Critical Kush™** hybrid is powerful and extremely vigorous yielding huge amounts of beautiful and very potent flowers. The Kush taste is unmistakable and the yield per plant is phenomenal. The plant grows to a medium height with side branches needing extra support to carry the weight of beautifully developed majestic colas of bud. **Critical Kush™** produces dense, heavy flowers.

**Tijuana Sativa / Kerala India X Afghan.**

**Widow Remedy™** was created by first crossing Tijuana Sativa with Kerala which created a beautiful Sativa dominant plant, flowering with high levels of cannabinoids. The strain was then further developed when combined with a pure Afghan, mainly to increase yield, shorten the flowering period and the added bonus of increased CBD potency in the final selection. The final result from this three-way blend is a remarkable hybrid with lineage approaching to the widow strain with added CBD. **Widow Remedy™** is an effective cure for pain relief, insomnia and comfort for nausea. Rainy day blues evaporate in its mist.
**Brazilian X Himalaya X Afghan X CBD enriched.**

CBD Caramel™ is a CBD enriched exotic 3-way fusion. A 70%/30% Indica dominant strain with 1:1 CBD-THC. The plant has dynamic growth from the start. The plant produces a very resinous, Sativa like flower structure, that is ready in just 60 days! An indoor yield of 500 gr/m² is easily attainable. CBD Caramel™ is also ideal for outdoor growing. CBD Caramel™ produces sweet sticky buds whose psychoactive effects are mellow, cerebral and comforting to patients needing to medicate while free from a stoned effect.

G13 X Hawaiian Sativa.

Maintaining our mystical G13 legend by crossing G13 with a classic Skunk#1. Crossing the G13 X Skunk#1 with our favourite Hawaiian Sativa, Barneys Farm has taken the G13 legend soaring to a celestial high, creating the famous G13 Haze™. This plant produces a high that covers the complete spectrum of effects, with a full body stone combined with a psychedelic Sativa high. The combination is powerful, heavenly and unforgettable. G13 Haze™ grows relatively tall and produces an outstanding generous flower structure with healthy resin production.
