Bad Azz Kush™ is a strain which was created by breeding a true Indica which is rich in history dating back to 98 in Los Angeles. **Bad Azz Kush™** originally started life from specially selected breeding by our friends in L.A. over years of careful and persistent work. By crossing the Original OG with Afghan Kush and from there crossing it with Urkel, **Bad Azz Kush™** was born. The plant can stretch in the flowering period and will need some space for enormous colas to develop. This is a heavy resin producing strain with enticing and unique dank and subtle forest fruit aromas. We owe a special thank you to our friend and rapper Bad Azz from Tha Dogg Pound Gangsta Crips.

The **Afghan Hash Plant™** was chosen from seeds collected in the 1970's, from the best traditional hash makers in the Mazari Sharif region. An exciting few years were then spent growing out and selecting the strongest and tastiest phenotypes for our breeding stock, from there the **Afghan Hash Plant™** was unearthed. It is a champion hash making variety and is one of our favourite pure Indica strains. This has become an important building-block in other Barneys Farm hybrids and in just 8 weeks flowering, the **Afghan Hash Plant™** develops dense resin-dripping flowers, releasing a rich sandalwood aroma that's undercut with a punch of citrus.

Pineapple Haze™ is the coming together of the legendary earthy Afghan X Skunk#1 and the spicy Old School Haze. This produced a supreme Sativa dominant hybrid with an extravagant harvest, delicious pineapple flavours together with a heavenly cerebral high. The average yield is 600 gr/m² indoors, but a longer pre-flowering time will increase up to 700gr/m². **Pineapple Haze™** thrives outdoors in most climates and yields of 1.5 kilos per plant are not unusual. The plant is mould resistant, hardy and rewarding for even the most novice grower. EC levels at a maximum of 1,70 EC during the flowering period will help the plant to its ultimate best.

Widow Remedy™ was created by first crossing Tijuana Sativa with Kerala which created a beautiful Sativa dominant plant, flowering with high levels of cannabinoids. The strain was then further developed when combined with a pure Afghan, mainly to increase yield, shorten the flowering period and the added bonus of increased CBD potency in the final selection. The final result from this three-way blend is a remarkable hybrid with lineage approaching to the widow strain with added CBD. **Widow Remedy™** is an effective cure for pain relief, insomnia and comfort for nausea. Rainy day blues evaporate in its mist.
